

TWC TAVANNES WATCH Co Est. 1891

Ref : TA A07.117/BP 02 TAVANIUM - Price : 1'250.00 USD

Movement

A07 ETA 2824-2 STD

Swiss Made Automatic movement. Quantième date, hours, minutes and sweep second in the center display. Ball bearing selfwinding system and corrector stop second device regulator system ETACHRON with regulator corrector.

Technical Specifications

Case: Stainless steel PVD/ TAVANIUM

Dial : White

Bracelet: Black nylon NATO strap

Crystal: Sapphire Crystal

Water Resistance: 10 ATM, 100m, 330ft

Suitable for swimming and snorkelling
but NOT suitable for subaqua diving

Size : 41 mm diameter

Description

The Submarine Collection is the revival of the first advertised waterproof watch of Tavannes Watch Co. During WWI, the Tavannes Watch Co was approached by two British submarine commanders to consider the construction of a watch suitable for work on submarine decks awash in water. This watch was supposed to be water-tight, non-magnetic, and the balance wheel had to be of a material which shows a minimum of expansion and contraction with variations in temperature. The face had to be legible at all times. In 1917 was born the first waterproof wrist watch made by the Tavannes Watch Company. The collection is based on swiss automatic movements, with minimum of 10ATM water resistance.
